**PETITIONING THE COURT**

[X] To modify the conditions of supervision as follows:

**The defendant shall serve a 90 day curfew.**

**CAUSE**

**Violation I: Violation of Condition #7: - The defendant shall refrain from excessive use of alcohol, and shall not purchase, possess, use, distribute or administer any controlled substance or paraphernalia related to any controlled substances, except as prescribed by a physician.**

On March 6, 2006, Anibal Torres submitted a urine sample which tested positive for marijuana. The sample was sent to Scientific Testing Laboratories, Inc. for further analysis. Scientific Testing Laboratories, Inc confirmed the positive results and provided a THC level of 84. (First Positive Drug Test)

On March 13, 2006, Anibal Torres submitted a urine sample which tested positive for marijuana. The sample was sent to Scientific Testing Laboratories, Inc. for further analysis. Scientific Testing Laboratories, Inc confirmed the positive results and provided a THC level of 15. The decrease in THC level from 84 to 15 indicates no additional marijuana use since the initial positive sample on March 6, 2006.

On March 22, 2006, Anibal Torres submitted a urine sample which tested positive for marijuana. The sample was sent to Scientific Testing Laboratories, Inc. for further analysis which confirmed an increase in the THC level from 15 to 20. On March 27, 2006, Anibal Torres submitted a urine sample which tested positive for marijuana. The sample was sent to Scientific Testing Laboratories, Inc. which confirmed the positive results and an increase in THC level from 20 to 26. According to Scientific Testing Laboratories, Inc based upon the THC levels on March 13<sup>th</sup>, March 22<sup>nd</sup>, and March 27<sup>th</sup>, they do not report with one hundred percent certainty that additional marijuana was used on multiple occasions. However, they do report with certainty that additional marijuana was used on at least one occasion between March 13, 2006 and March 27, 2006. (Second Positive Drug Test)

has provided two (2) positive urinalysis tests over the past month which is concerning. He informed us that he did not believe he was in need of detoxification or in-patient treatment. Mr. Torres assured this Probation Officer that his marijuana use was recreational and he could abstain from use without long term in-patient treatment. The Probation Office has offered counseling to Mr. Torres and increased the frequency of his urinalysis testing. To address this non-compliance, we recommend a modification of his special conditions to include the defendant serving a 90 day curfew. This modification will provide Mr. Torres structure to his daily routine while enabling the Probation Office to monitor him more closely which will hopefully prevent his drug use from escalating to the point of revocation. Please find attached a Probation Form 49 executed by Mr. Torres, agreeing to the amendment of his conditions of Supervised Release.
